Snow Monkey - Official Tab Guide

Thank you for purchasing the *Snow Monkey* tab created by Marcin.

This piece can be challenging and this style is particularly difficult to notate, so while learning I recommend you closely follow the official video on Youtube.

The tabs are available in .PDF & .GPX (Guitar Pro) formats. I suggest learning this piece using mainly tablature notation in addition to using standard notation for rhythm.

IMPORTANT:

In bars 17 - 24 and 66 - 69 play either the harmonics or the bass line.

DO NOT play both of them at the same time. For solo performances I suggest playing the bass line.
